Cargojet team members are dedicated, hardworking, and have a strong sense of leadership and commitment. We are seeking experienced and qualified applicants to work as an **Oracle Apex Application Developer** based out of our Mississauga office.

#### **Primary Objective of the Position:**

The job holder will perform software development, implementation, and ongoing support and maintenance on web applications built on Oracle Apex.

#### **Essential Position Functions:**

- Ability to directly develop, enhance and maintain the current set of information systems and applications currently in production.
- Ability to facilitate the development, enhancement, and maintenance of current and future applications through internal resources, business partners, and customers.
- Ability to manage the inherent risks associated with new and existing software initiatives.
- Ability to plan, prioritize, and manage multiple simultaneous projects.
- Ability to solve problems and communicate effectively with technical staff and with non-technical professional and support staff about solutions.
- Must have a solid grasp of web foundation technologies, including HTML, CSS, JavaScript; and Relational Databases (Oracle) for data storage. Experience in all phases of project management including mission-critical projects. Must also have the demonstrated capacity to rapidly learn new software languages, tools, and development strategies as needed.

#### **Minimum Qualifications/Skills:**

- Minimum of 5 years' technical experience in web applications development projects.
- Bachelor's Degree in a technical field preferred
- Demonstrated proficiency in web development using HTML, JavaScript, and CSS.
- Demonstrated proficiency in Oracle SQL database design and functionality, as it relates to coding and to user interface using Oracle SQL Developer.
- Experience in the use of a code source management.
- Knowledge of RESTful API development and usage with JSON and/or XML
- Knowledge of Oracle technologies including Database 12c or higher, PL/SQL programming
- APEX web development expertise is a must.
- Knowledge of Oracle BI Publisher, Jasper Report Server, SAP Crystal Reports a strong plus
- Knowledge of Linux, including system administration and software installation, is a strong plus

#### **Important to Know:**

- Cargojet is an equal opportunity employer. We thank you for your interest. Only those candidates selected for an interview will be contacted.
- We are committed to providing accommodations for persons with disabilities. If you require accommodation, we will work with you to meet your needs.
- At Cargojet, we make safety the highest priority. Because of this priority and as we operate in a safety-sensitive environment, we require all employees to abstain from consuming Cannabis, in and outside of the workplace. This is a critical element of our drug and alcohol policy that all employees must comply with at all times.

To apply for this opportunity, please send your resume and a cover letter to **[hr@cargojet.com](mailto:hr@cargojet.com)**
